

"PARKEREN THEATER"

- EPA Award 2013, category New projects
- Multi-storey car park, 8 stories with 14 split-levels
- 594 parking spaces
- Opened in September 2011
- Shoppers, business parking and other city center visitors
- Designed by Van Dongen - Koschuch Architects & Planners

ENTER PARKING GREEN FACILITY

The entrance / exit, with four driving lanes, is situated at the south side of the car park. Lighting emphasizes the green building concept.

SPACIOUS OVERVIEW

Large parking spots and a lot of light contributes to a spacious atmosphere. A simple but efficient layout makes it easier for the visitors to find their way.

"PARKEREN THEATER"

ART EXPERIENCE SEE AND HEAR IT

Visual arts by Margit Lukács & Persijn Broersen and soundscapes composed by Berend Dubbe & Gwendolyn Thomas.

Soundscapes can be heard in the car park.

WAYFINDING TECHNIQUES

The entire car park has a corporate signage regarding the use of icons and colors. It directs visitors to the facilities in and outside the car park.

"PARKEREN THEATER"

CONTROL ROOM OPERATOR LODGE

Use of a CCTV system to remotely monitor the car park inside the operators lodge, located in car park "Parkeren Stadshuis".

BAMBOO FACADES

It is a CO2 neutral car park. Bamboo compensates the emission from visitor's cars. The green character of the building is supported by printed glass and lighting.
