Benefits

SCANVCOR

👍 Users

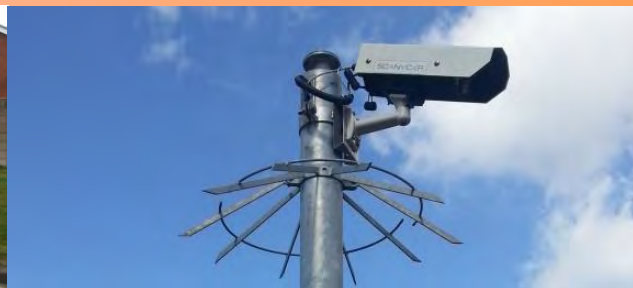

- Fast Entry and Exit
- Ease of Payment
- Pay only for staying time

👍 Owner

- Lower Investment
- Less Maintenance
- Segmented Customer Approach
- Less space taken by equipment

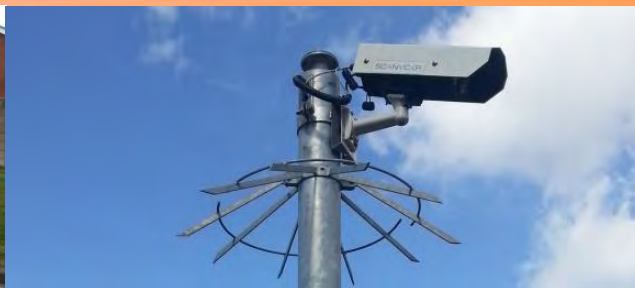

👍 Environment

- Atmosphere of Hospitality
- Less Visual and Air Pollution

Technique

- ANPR cameras at Entries and Exits
- Vehicles are detected and proof of presence is created automatically
- Cabled or 3G communication to a central server
- Interfaces to P&D and Enforcement back office systems
- Verification tool for error free enforcement

Enforcement process

- Enforcement on Payment and Overstay
- Every visit of vehicle is detected and stored with ANPR image and colour overview image
- Staying time is calculated automatically
- From list of present or visited vehicles a payment list is created
- Hotels: if no payment can be found and vehicle is not on whitelist enforcement record is created through interface to enforcement back office
- Hospital: staying time is calculated for staff and charged directly through salary back office

Current Operations

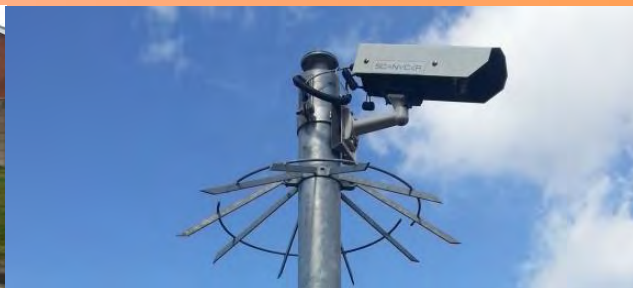

SCANVCR

New Cross Hospital

- Large hospital with parking area for employees. Multiple access. Employees pay for parking their cars. Charging directly through HR department, deducted from salary.

Travelodge

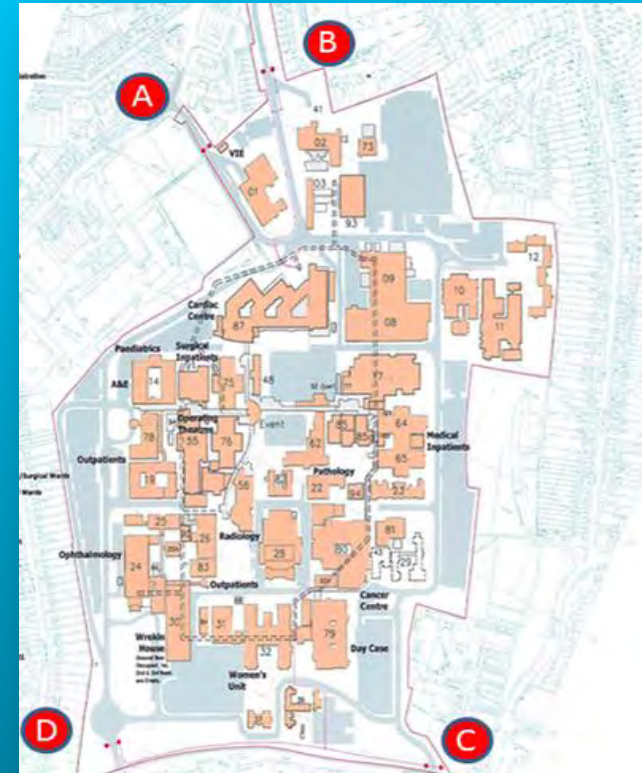

- Hotel chain with private car park. Guests are charged through hotel invoice or pay at P&D terminal. Suppliers and Staff are on whitelist.

New Cross Hospital
