EPA - European Parking Awards 2017

Category 4 : Innovative schemes in parking

Park&Forget

Imagine *never* receiving a parking ticket again, *never* experiencing the hassle of paying at a parking meter, with a text message, or a mobile application.

Just park, and forget.

The PARKD device

- PARKD offers the most trustable & accurate device on the market, compatible with every European car since 2003.
- Always around 30cm from your dashboard
- Plug&Play, installed within 1 minute by driver itself.
- Connection by internet, bluetooth and GPS.

PARKD

Save time...

- No need to **search** for a parking meter to pay at.
- No need to **open an app and manually stop** this parking session once leaving the parking spot.

..and money!

- Time saving results in cost saving by **higher productivity and efficiency** for drivers & financial administration.
- **Avoid parking tickets** and the accounting cost of processing parking tickets.
- 'Park by the minute' : **pay exactly the amount needed** for the exact time you parked.
- **Avoid the hassle of forgetting** to start/stop a parking session.

Start parking session

- 1) Engine off
- 2) No change in geo-location
- 3) Start parking session**
- 4) Cloud communication city server

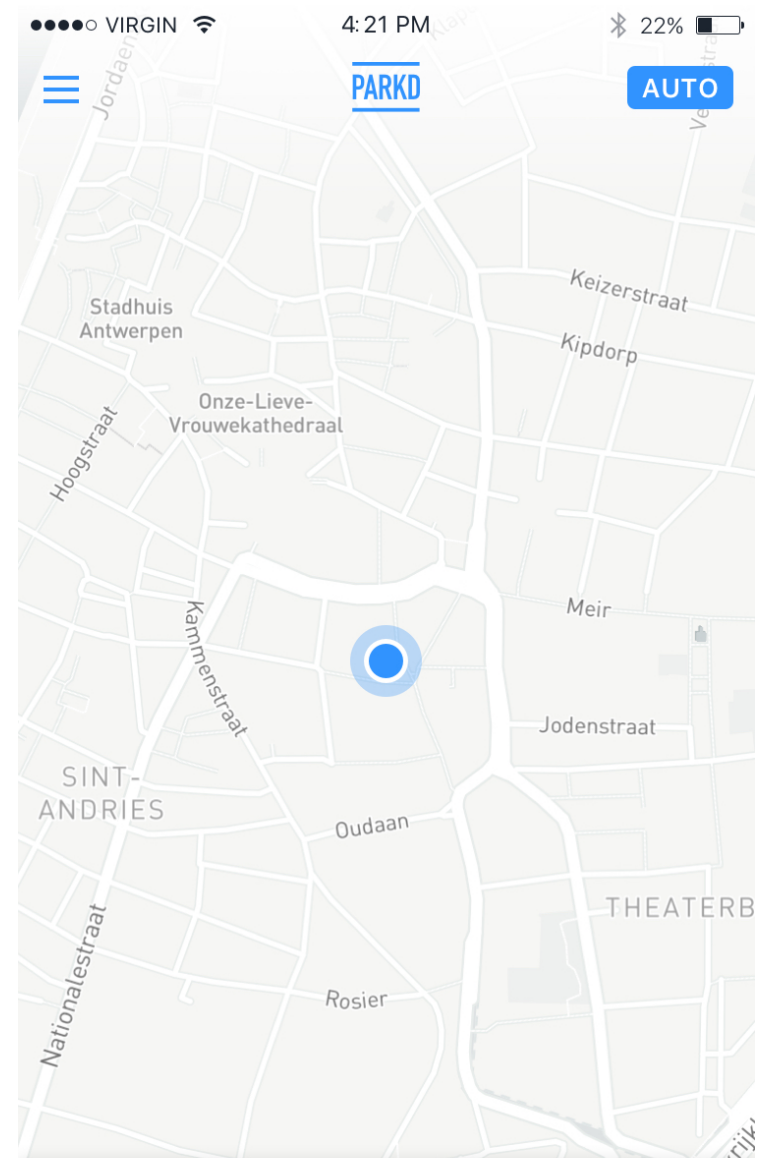

Stop parking session

- 1) Engine on
- 2) Change in geo-location
- 3) Stop parking session**
- 4) Cloud communication city server
- 5) Parking session in parking history
