

## Assessment Form for the EPA Award 2019 – Category 2- Renovated parking structures

City & Project name:

Assessment criteria	Applicants description	Remarks by Board/Jury
<p><b>Project Description:</b> Give a brief overview of the project describing the main features of the renovation and the techniques used. Please remember that the assessment will be based on the renovation project and will include both the quality of the final result and the relative improvement obtained in the renovating process. (maximum 100 words).</p>		
<p><b>Improvements:</b> Three most important improvements, has the function of the car park been changed?</p>		
<p><b>Added Structural Features:</b> Describe any new features that have been added to the existing car park to improve the overall quality of the car park; for example: new stairs/lifts, additional internal ramps.</p>		
<p><b>Environmental Impact:</b> Describe how the renovation will affect the environmental impact of the car park, compared with before renovation.</p>		
<p><b>Remaining old structures</b> Showing the old structure inside the finished project or describe how the structure of the old car park is included in the renovated project.</p>		

## Assessment Form for the EPA Award 2019 – Category 2- Renovated parking structures

City & Project name:

Assessment criteria	Applicants description	Remarks by Board/Jury
<b>Situation &amp; functionality:</b>		
<b>Function of Car Park</b> Description of the community that the car park is intended to serve.		
<b>Location:</b> Map/sketch showing the car parks location in relation to its main target area/arked. Scale 1:5000		
<b>Contribution to Local Community:</b> Explain how the car park enhances the local community and supports local social and economic activity. (Max 50 words)		
<b>Identification as a car park:</b> Parking guidance to the car park at the most important access roads and identification of entrance. (Max. 50 words, photo)		
<b>Contribution to quality of urban space</b> What considerations have been made to ensure that the car park contributes to a better townscape. Quality of areas around the car park. (Max. 50 words, drawing/photo)		
<b>Accessibility for cars:</b> Describe and/or show on map/photo
